

It is estimated that cyber crime will cost the world \$10.5 trillion annually by 2025 (Morgan, 2020).

What percentage of global GDP was lost due to the economic cost of cyber security breaches in 2020?

● 4-6%

Yes, that's correct! This percentage was equivalent to a staggering \$4-6 million (USD) loss.

(Keck, 2022)
